

Alexis[®]

COLECTOMY RETRACTOR

360°

- ▶ Provides unparalleled exposure with minimum incision size.
- ▶ Reduces risk of SSI.¹
- ▶ Maintains moisture at incision site.¹
- ▶ Distributes force evenly, potentially minimizing tissue trauma and pain.
- ▶ Facilitates complete and rapid extracorporeal resections.

COLECTOMY RETRACTOR

The Alexis retractor reduces wound infection, enhances visualization and offers convenience and versatility. Studies show that preventing wound infections can result in reduced hospitalization, decreased costs and improved patient outcomes.^{1,2,3}

360° Atraumatic Retraction

- ▶ Enhances working space and visibility.
- ▶ Distributes force circumferentially, potentially minimizing tissue trauma and pain.

360° Protection

- ▶ Significantly diminishes risk of wound infection.¹
- ▶ Allows visualization of wound margins.
- ▶ Maintains moisture of the incision site.¹

Ultimate Versatility

- ▶ Reduces the need for handheld retractors, maximizing surgical efficiency.
- ▶ Functions as an additional working port to facilitate laparoscopic procedures.

“The results of this study demonstrate that wound infection decreased significantly in the *With Alexis retractor group*.”¹
